Jest Reaction To Nixon Talk

The Delta County Eisenhower for President Club announced this morning that it is compiling reactions to the spech of Sen. Richard Nixon, Republican vice-presidential nominee, in which the senator explained his financial transactions.

John Anthony, president of the club, reported that the club will accept telephone calls at phone 2818-W or cards addressed to the Eisenhower for President Committee, Box 473.

Those favoring the retention of Sen. Nixon on the Republican ticket are asked to indicate "Yes" and those favoring his resignation as a vice presidential nominee are asked to indicate "No".

Anthony said that it is not necessary to disclose the identity of those indicating their reactions.

Gladstone Surveys Hospital Problem

WHETHER Gladstone will proceed with plans for construction of a new hospital there probably will be decided within the near future following a survey that will be made to determine the degree of financial support such a project would

Pressure for an early decision is being applied by the Michigan Bureau of Hospital Survey and Construction, the state agency that distributes federal hospital construction funds. The state agency wants an early decision on this issue to determine whether it should earmark federal funds for the proposed Gladstone project.

At the moment, no federal funds are available in Michigan for hospital projects not already approved but additional funds will be forthcoming later. St. Francis hospital in Escanaba has applied for federal assistance for the enlargement of the hospital here but has been advised that the expxansion project must await a new appropriation from Congress.

Hospital construction and maintenance is extremely expensive and, of course, the examples of robbery, arson, lynching, or proposed expansion of St. Francis hospital is naturally intertwined with the proposed hospital at Gladstone. If Gladstone can raise the funds to meet a matching share of the construction cost of a new hospital and can also finance the maintenance of the hospital, for which no federal assistance funds are available, then it is understandable that Gladstone would desire to provide a hospital of its own. And, in this event, the needs of St. Francis hospital would necessarily be reduced.

An early decision by the Gladstone committee will help to clarify this situa-

TV AND CHILDREN (Christian Science Monitor)

A San Francisco mothers' club listened to four hours of children's programs on television. In those four hours they-and the children—saw programs involving 13 murders and killings, 14 sluggings, six kidnapings, three holdups, three explosions and dynamitings, three cases of blackmail and extortion, three thieveries, and seven

Multiply those figures by the nationwide child-hours of listening and you have something of TV's present "educational" value for children. Yet a professor at New York University declares:

I am convinced that you are witnessing today the Golden Age of television-that there are actually more programs of quality on the air today than there will be five, ten, fifteen years from now, because the operation of simple economic laws will drive sponsors increasingly to the lowest-common-denominator program.

One need not be so pessimistic. A revulsion of public feeling and organized protests by awakened citizens can bring changes for the better, though experience with the older problem of comic books does not encourage hope of quick or wholly satisfactory solutions. The chief hope may lie in the development of educational TV rather than the early reform of

commercial TV. Let us hope that sufficient attention will be paid by the educators to developing imaginative, arresting programs for the youngsters as well as exploring the vast possibilities of adult education.

Merry-Go-Round

By DREW PEARSON

WASHINGTON-A lot of people have been wondering how dynamic Dick Nixon 39 years old and a newcomer in politics, managed to latch on to the No. 2 spot on the Republican ticket at Chicago.

The story is one of an extremely astute and opportunistic young man plus the hitand-miss habits of a political convention in picking its candidates-especially the vice president.

Nixon, a resident of Whittier, California,

near Pasadena, had come to know an automobile salesman in Pasadena, Paul Hoffman, who later became president of Studebaker and took over the most important the Marshall Plan. Last winter Hoffman became one of the three top advisers to General Eisenhower and head of the Citi-

Instead he The condition will become critical as gate from California and work from within to switch Warren delegates over to Eisen-

Nixon figured that as a senator, he would be given the courtesy of picking ten delegates, and with this as a nucleus he could make sure that California was in Eisennower's column before the balloting had gone more than one round.

In order to stir up Eisenhower sentiment in California, Nixon sent out 25,000 letters to registered GOP voters, asking: "Who is your choice for President, assuming that Governor Warren is not nomi-

This mailing job may have been one expense to which the so-called Millionaires Club donated. Governor Warren, however, got wind of the Nixon plebiscite, and never having cared much for the ambitious young senator from California, a mutual friend, Bernard Brennan, also a member of the Millionaires' Club, put the quietus on Nixon's vote-results.

However, Nixon arrived at Chicago with a tacit understanding from Paul Hoffman that he would do his best for Ike inside the California delegation and that Ike, in turn, would give him favorable consideration for the vice presidency. At Chicago, Nixon more than kept his word.

It was he who swung California over to the Eisenhower point of view when it came to the debate over the Langlie amendment, and it was he who literally grabbed the microphone away from Senator Knowland, when it came to the hot debate over seating the Georgia delega-

One danger a senator risks if he accepts "expense" money from outsiders is that some of his benefactors may have contracts with the government and that he in turn may make representations to the been the first to use it, in his race government on their behalf. This is against

For instance, some of Nixon's benefactors, or their attorneys, did have government contracts as follows:

Good Evening...

SANTA IN KOREA-When war strikes and death and destruction take over, as it has in Korea, there is widespread suffering among the people.

The children suffer most. For them there is the need of extra food and care and shelter. They cannot provide for themselves. And when parents and relatives are dead or scattered the children becomes homeless and wandering "orphans"

That is what Pvt. Kenny Beaudoin calls them. They are orphans without homes, without shoes for their feet or coats for their backs. And Pvt. Beaudoin would like to have your help in doing something for them.

His appeal is for you to become are American Santa Claus" who will send gifts to the orphans of South Korea.

doin, 21 years old, is the son of Mr. and Mrs. Med Beaudoin of 306 South Ninth St. He writes to the Escanaba Daily Press: "I want to tell you of a Christmas party we are planning for Korean orphans. The affair will be held here (Pusan), but its success depends upon you at home. With your assistance we are going to make

PLAN FOR CHRISTMAS-Pvt. Beau-

Santa Claus a reality for these children.

"Most of the kids are between the ages of three and eight years. I feel sure that if you look through that trunk in the attic you'll find an old sweater, a pair of shoes, perhaps some woolen underclothing-maybe even a pair of trousers that these children could use.

"We would like to give each child a cake of soap and a small towel. Being youngsters, guess they appreciate a toy of some sort, too. "To these people who are continually

being exposed to communist propaganda,

their poverty and their need. Clothing-warm winter clothing-and soap and a towel. Perhaps a small toy, if you can spare it. They need the clothing because they are

cold. Winters in Korea are as severe as those in Northern Michigan. They need soap and towel because they are dirty. I talked to Mrs. Med Beaudoin, Pvt.

Beaudoin's mother, and she also had a letter from her son, exxplaining his plan for a Christmas party for the "orphans". "We have already sent some things over and Kenny tells us nobody here

could know the need those children are in," she said. Clothing and shoes are most important, soap is second. Then if there is the inclination on the part of Santa a small toy-or

a bit of candy, as Mrs. Beaudoin suggests, WINNING A WAR-In this period of international cooperation among nations friendly to each other many wars are won or lost by the presence or the absence of

goodwill and understanding. Forces of the United Nations today are fighting communism in Korea with bullets and propaganda. It is an organized campaign that has small place in it for the care of wandering youngsters,

many of whom must steal if they are to find food and clothing to survive. Members of the U.S. fighting forces, men like Pvt. Beaudoin, see here an opportunity for personal service to relieve the suffering of the children—and to win friends for the United States.

OCT 15 DEADLINE-Kenny is one of three Beaudoin children who have served in U. S. military units. There was an older brother and a sister who are now veterans. A third brother, now 19, may yet be called. Kenny graduated from Escanaba High School in 1948 .

Packages should be mailed before Oct. 15 if they are to reach Korea in time for the "orphans" Christmas party. They should be addressed to:

Pvt. Kenny Beaudoin 114th QM Graves Registration Co.

APO 59 c/o PM San Francisco, Calif. In making up the packages here, the American "Santas" should remember Pvt. Beaudoin's instructions. Warm clothing and shoes first of all. Then some soap and a towel and a small toy-because the "orphans" are children with a child's enjoyment of the happy fantasy of play.

Ruark Irked By Quirk In Law

By ROBERT C. RUARK

NEW YORK-I go right along with the girls on this latest affront to their sex, the thing that's been making so many headlines around here recently. We have had a very nasty prostitution story running, for weeks now. The enforcement of vice laws has been as phony as ever, a complete double-standard deal with the scarlet ladies taking the fall and the scarlet gentlement larking off

We have an odd bit of law in the land which says that a man may be called as witness in a prostitution case without publicly revealing his identity. The buyer of the illicit goods may charge the seller and remain anonymous, and his testimony is good in the courts But the poor dame's name gets smeared all over the front page, and eventually they hustle her off to the hoosegow. Nothing happens to the guy.

law. In theft, the receiver of stolen goods is equally guilty with the seller. In murder, an accomplice. although he may not fire a shot,

What you have to realize is that a woman cannot be a prostitute on her own time, without collusion. The woman fallen, then, must be punished to fall, and the guy who pushed her over the commercial This is really a peculiar piece of precipice must be equally guilty in the eyes of justice.

The professional feminists of our town have raised a great clamor as the result of the legal persecution of a 20-buck call girl, while her associates in illegality went free to charge under a mask of name and face that they enjoyed her favors. They have an awfully good point.

Women have achieved the ballot, and they are regarded as equal under the law in most cases. It seems ridiculous that a girl may be punished for selling her body when the man who buys it goes free. And that his testimony can convict her and send her to jail or cause her to be fined.

Two To Make A Bargain

I don't argue morals, here, but merely jurisprudence. Prostitition is against the law. It has been with us since there were people, and nobody has ever been able to stamp it out, but today, at this moment, it is against the law. Order For Road Chemical Okeyed

The city will buy and use 75 tons of salt and chloride for maintenance of roads and streets this winter as a result of action taken Monday night by the Manistique City Council

The councilmen approved the expenditure of approximately \$1,-500 for the necessary chemicals that will help decrease the hazard of slippery and treacherous city roads in the winter months.

50 Tons of Chloride

The purchase was recommended in council session by city manager H. W. Heideman who estimated winter road maintenance of this kind would take about 50 tons of chloride and 25 tons of salt.

Dow Chemical Company of Midland, Mich., was named as the firm from which the chemicals would be bought.

Last year the city purchased 40 tons of chloride for use during the winter but this was found to be insufficient. An additional 10 tons was later in the season sold to the city by the County Road Commis-

With Ray Crandall

A lot of honors have come to Pete Kutches in his high school athletic career, but probably the highest peak was reached this week with the announcement of his selection to the all-American high school basketball second team ... Announcement was made in the Converse 1952 basketball year book which listed selections by Chuck Taylor, national high school basketball authority.

Taylor picks three all-America high school teams, composed mostly but not entirely of players who were nominated to compete in the annual North-South game staged at Murray, Ky. The first team is composed of stars who were standouts on both squads of the North-South contest. One player who was not at Murray made the second team and two who were not in the annual high school classic made the third team Terry Rand, 6-7 3/4 center from Green Bay, Wis., made the third team.

Kutches, all-time basketball and football great at St. Joseph, saw only limited action in the North-South which was won by the North 84-70 A severe eye cut suffered in pre-game practice handicapped him considerably But his excellent defensive work and all-around ability earned him the second team berth . . Kutches is the only Michigan athlete ever named to an all-American high school basketball selection ... Last season he eclipsed the all-time Upper Peninsula while the Maroons were turning high school scoring roord by collecting 588 points in 20 games, an back Green Bay Catholic Central, average of 29.4 per outing. Both the total and average are records. | 21-0.

Switching to football, it is evident why Coach Joe Milokna is stressing pass defense this week in preparation for the game at Menominee Saturday night .. The Maroons scored three touchdowns on passes to beat Green. Bay Catholic Central 21-0 last Saturday ... Co-Captain Loren Wall figured in all the pass plays, tossing two and receiving the third from southpaw Bill Caley It was the 11th straight gridiron victory for Coach Ken Radick's Maroons .. Incidentally, Wall, the Maroon left halfback, also led his mates on the ground with 53 yards in 15 carries.

Three teams fell from the undefeated and untied grid list in U. P. high school circles last week ... Stambaugh was knocked off by Iron Mountain after three straight, Gladstone slipped to Manistique after one win and Bark River suffered its first loss in two starts to St. Joe Still unbeaten are Iron River, Menominee, Ontonagon, Wakefield and Iron Mountain ... Ironwood is undefeated but tied ... Ontonagon won from DePere, Wis., in the last its fourth straight by the grace of a safety over Houghton, 8-7 Sat- home game for the Trojans Fri-

Little Morenci in Lower Michigan boasts one of the most imposing victory skeins in the state's grid history... The team ran its string of unbeaten games to 35 with a 19-0 victory over Onsted.

Don Carlson, ex-backfield star at Escanaba High School, is a leading candidate for a halfback berth on the United States Merchant Iron River Marine Academy grid team at Kings Point, Long Island Cadet- Iron Mountain .. 2 0 0 27 midshipman Carlson is one of 64 candidates working out under Coach | Menominee 1 Clem Stralka, former Georgetown and Washington Redskins line star Ironwood 1

Kings Point opens the 1952 season Saturday against the Univershity of Rochester in Rochester, N. Y. .. Don is the son of Mr. and Mrs. Ivan Carlson, 529 S. 16th St.

The theater charged a flat rate of \$10 per car with no limit on the number of persons to a car.

Hours before the fight hit the screen via a television hookup from Philadelphia, thousands of cars were lined up for admission. A midget auto strained under the weight of a dozen people. Three men crowded into the trunk of another car, already bulging at the seams.

Seymour Weiss, theater manager, estimated 20,000 persons were inside the lot alone. A good house usually, he said, numbered 3,500.

Theater employes tried to block off the entrance when the place filled up but drivers piloted their jam-packed cars right around the barricades.

Before the fight went on, a voice over a public address system announced

"Rocky Marciano is the new champ of the world.' That did it. Many in the crowd thought the fight was

over and started yelling for their money back. The furore subsided a few minutes later. The management explained it was only testing the

Marciano Is New Champion

PHILADELPHIA (A) - Rocky Marciano, the guy Jersey Joe Walcott and many others said "can't fight," is the new world heavyweight champion.

"They'll probably say he still can't fight," said trainer Charley Goldman shortly after the dynamic, 28-year-old flattened Walcott in 43 seconds of the 13th round with one perfect right and sent him into retirement.

"But who's going to beat him?" Marciano's manager, Al Weill, discussing the future of his fighter, said early today that Rocky's next opponent might be Rex Layne, Roland La Starza or Ezzard Charles.

"Maybe it will be Walcott again," added the portly manager. "Who knows? Maybe he'll change his mind and not quit. All I know is that I signed a contract to meet Walcott again in 90 days and if he wants that fight he can have it. Only it's got to be where I say - maybe Miami and maybe Chi-
